ATTENTION AND ENGAGEMENT MATTERS

TIPS FOR INCREASING FOCUSED ATTENTION AND ENGAGEMENT IN CLASSROOMS

WHY THiS MATTERS

In today's digital environment, students are constantly exposed to distractions that compete for their attention. Distractions come from notifications, multitasking habits, and other students. Maintaining focues has become increasingly difficut yet attention remains a foundational skill for learning, comprehension, and critical thinking.

FOCUSED ATTENTION INCREASES ENGAGEMENT

This short course is designed to help educators understand how attention impacts learning and to provide practical strategies for reducing distractions and increasing student engagement. By intentionally designing classroom learning experiences that support focus, educators can improve both student outcomes and overall classroom effectiveness.

Section 1: Why This Matters

Section 2: Strategies to Reduce Distraction and Increase Engagment

Section 3: Knowledge Check

STRATEGIES TO REDUCE DISTRACTION

Click on each widget to learn more about each tip!
